- 07 Robust delivery hose
- 08 Sturdy 12 V pump protected by impact resistant enclosure, pressure and spray volume selectable with two-stage toggle switch
- 09 Maintenance free lead-gel battery with quick re-charge feature

Work efficiency and high performance in closed spaces is provided by the SOLO Battery-operated Backpack Sprayer 417. But the SOLO 417 is capable of doing far more than just spraying in glass houses. With a dry weight of only 7.8 kg, the SOLO 417 is also at home in large gardens with decorative plants as well as edible plants, professional market gardens plus landscaping and woodland maintenance.

Free of emissions and whisper quiet, the SOLO 417 delivers spray solution from the transparent tank. The tank has a nominal volume of 18 l and is made of high impact resistant and UV-stabilized plastic material.

The strong, two-stage 12 V pump provides up to 4.3 bar pressure and delivers 1.07 l/min or 1.42 l/min. The low empty weight guarantees tireless work. An empty battery is re-charged in a few hours with the supplied charger that also includes socket adapters.

The comfortable carrying frame with padded back and the wide, padded carrying straps guarantee tireless work. They also eliminate the minimal vibrations of the quiet running electric motor.

Model	417
Part no.	41701
Motor	12 V electric pump
Rating	12 V / 7,2 Ah
Tank capacity	18 l
Flat spray nozzle	●
Spray pressure, two-stages	2,5 / 4,3 bar
Output	I 1,07 l/min.
l/min with standard nozzle	II 1,42 l/min.
Operation time max.	I: approx. 3.5 hrs / II: approx. 2 hrs
Dry weight	7,8 kg
Standard delivery	Plastic spray wand 50cm
Sound pressure level	< 70 dB(A)
Sound power level, guaranteed	< 70 dB(A)
Vibration value	< 2,0 m/s ²
