GENERAL SAFETY NOTICES	
 	Read these safety notices and the original operation manual with care before using this device.
	Call up the original operation manual (incl. declaration of conformity) online under https://shop.solo.global/downloadcenter , save it on your device, and print it if necessary.
	Information on the contents in accordance with REACH VO (EC) no. 1907/2006 can be found online at: https://shop.solo.global/media/5e/b0/75/1634714561/REACH_2020.pdf
	When passing the device on to any third parties, please ensure that they are familiar with operation of the device and that the safety notices are known to and observed by them.
	The user shall be liable for any damage occurring due to non-observation of the operating manual and/or the safety notices or any changes to the device and the warranty claim shall lapse in this case.
	Devices and spraying medium must be kept out of reach of children!
SAFE OPERATION, SAFE HANDLING, AND MAINTENANCE	
	Never spray against the wind direction!
	Keep persons and animals away from the work area and never spray towards them!
	Do not keep any open flame, fire, or open ignition sources in direct proximity of the device!
SAFE HANDLING OF SPRAYING MEDIUM	
	Wear the personal protection equipment recommended by the medium manufacturer (protective clothing, gloves, facial protection, breathing protection, goggles as required)
	Observe the safety notices and dispensing notices of the medium manufacturers.
	Dispose of any excess medium in accordance with the medium manufacturer's instructions!
	Observe national specifications/limitations/prohibitions on the medium used.

SAFE HANDLING OF THE RECHARGEABLE BATTERY	
	The device contains a lithium-ion battery!
	Read all notices on rechargeable batteries in the original operation manual of the device with care before use!
	Only use original rechargeable batteries!
	Do not expose the rechargeable battery/device to direct sunlight or other heat sources! Never let the rechargeable battery come into contact with fire!
	Never submerge the rechargeable battery/device in water!
	Do not open or disassemble the rechargeable battery!
	Do not short-circuit the rechargeable battery!
	Improper use of lithium-ion batteries leads to a danger of fire and explosion!
	Transport of lithium-ion batteries is subject to the law on hazardous goods. Only transport rechargeable batteries that are undamaged.
	Professionally dispose of rechargeable batteries. Find information on disposal in the device-specific operating manual and/or the information accessible on our website.
SAFE HANDLING OF THE CHARGER/CHARGING CABLE	
	Read all notices on the charger in the original operation manual of the device with care before use!
	Only use for charging the associated rechargeable battery/use charger! Do not charge unsupervised! Disconnect the charger from the mains and remove the rechargeable battery after charging.
	The mains value, type, and frequency must correspond to the operating voltage in accordance with the information on the charger. Only plug the plug/mains plug into a matching connection socket/outlet.
	Always check the rechargeable battery, cable, plug, and charger for damage before charging! Do not charge any damaged/defective rechargeable batteries! Do not use any damaged cables or chargers!
	Never use the charger outdoors! Only charge in well-ventilated rooms!
SAFE DISPOSAL	
	Electrical devices do not belong in the household waste. Find more information on disposal in the operating manual and/or the information accessible on our website.
