Product Information

Pressure Sprayer 303 HD

CLEANLine

The SOLO 303 HD handheld pressure sprayer is a practical and universal part of the SOLO Industrial Line for professional spray applications in the workshop and in the industry.

■ Application

Ideally suited for the precise application of lubricating fluids or solvents in most trade workshops and in the automotive industry.

Suitable for use with products that contain mineral oil, mineral oil- based solvents, separating fluids, form oil, wheel rim and brake cleaners. Ideal for the removal of organic contaminants such as grease-, oil-, resin- and tar residues, for the removal of paraffin wax, cleaning of machinery and engines, cleaning of parts and for lubricating jobs.

Not suitable for strongly alkaline, acetone and alcoholic substances.

■ Product Details

- Stable and firm 1.25 l container with content level markings.
- The universal brass nozzle is continuously adjustable from fine spray fog to pointing stream.
- Ergonomic shape with comfortable operating handle.
- Pleasant to use with continuous spray function.
- The large volume pump generates effective and rapid pressure build up and provides additional pump protection.
- Materials resistant to chemicals and special solvents.

Model	303 HD
Part no.	30341
Piston pump	●
Nominal volume litre	1,25
Spray pressure bar	3
Weight, empty kg	0,5
High value seals	FKM
Nozzle	SOLO universal hollow cone nozzle, adjustable
